Dear Friends,

For all things there is a season ... Bull sale season is typically in the spring – even at Red Hill. We are thankful for your support and purchases at our past twelve spring bull sales and look forward to next March! However, we recognize many of our commercial bull buyers calve in the fall and need bulls to service their cows this time of year. For the third year, we are offering a select group of bulls on October 28th to help meet our commercial customers' needs. We continue to use this fall sale to market bulls with fewer expenses, and we pass on those cost savings to you, the customer. To save on costs, we have not pictured or videoed these bulls.

When you buy a bull to breed your cows from Red Hill, you are purchasing part of the Red Hill program – a program that measures success by your profitability. Red Hill cattle have been selected to improve economically relevant traits with a goal of optimizing the practicality and profitability for our commercial customers. We focus on documented breed leading production traits while maintaining phenotypically pleasing cattle. Even so, our program doesn't stop at the animals we sell. We believe in the importance of offering services to our customers – services that will increase the value of your herd. Ask us about the services we offer!

There are a couple of important items to bring to your attention. The sale will take place at 10 a.m. at the 'home farm' tobacco barns – 2070 Wheeley Springs Road, Lafayette, TN. The sale bulls have been sorted and are available for viewing anytime. Just let us know when you would like to come and look. We will not be offering free delivery for bulls in this sale. We will make deliveries at cost. We encourage you to bring your trailer for load out on sale day. However, if you are out-of-state and interested in bringing your trailer, please call us to make sure that your state will allow for transportation on sale day – without further health testing.

A major reward of the seedstock business is the opportunity to enjoy the friendship and fellowship of our customers and fellow breeders. You are always welcome to visit our farm to study our cattle and their production records. We intend to collect the most comprehensive data set in the industry - - from birth to rail to cowherd records - - and share all the information with you, the customer. Please review our sale offering and contact us if you have questions. We hope to see you on October 28th!

Terms and Conditions

SALE LOCATION: 2070 Wheeley Springs Road, Lafayette, TN 37083

DIRECTIONS:

(CAUTION: FOR BEST RESULTS DO NOT FOLLOW GPS OR INTERNET DIRECTIONS)

FROM LAFAYETTE, TN: North on Hwy 10 – 7.5 miles, turn right on Wheeley Springs Road.
Go 2 miles. On right.

FROM SCOTTSVILLE, KY: 100 East, turn right on 1421. Go 4.2 miles, turn left on 1578.
Go 4.4 miles, turn right on Hwy 10. Go 1.4 miles, turn left on Wheeley Springs Road. Go
2 miles. On right.

TERMS: Terms of the sale are cash or good check.

ANNOUNCEMENTS: Sale day announcements take precedence over printed material.

BUYER REGISTRATION: We request all prospective buyers register and receive a buyer
number before the sale.

DELIVERY: Please bring your trailer. Delivery will be at cost.

SIGHT-UNSEEN BIDDING: We will handle all bids confidentially.

Contact Bart (615-666-3098) or Gordon (270-991-2663) prior to the sale for information
and/or assistance. We guarantee 100% satisfaction on sight-unseen purchases!

SALE PROCEDURES: We will conduct a “Farmers’ Auction” to sell each individual lot. Cattle sell in catalog order. Each animal has a base price listed in the catalog. When it is time to sell a particular animal, we will ask those interested to hold up their buyer number. If only one number is in the air, the animal will be sold at the base price to that individual. If there are multiple numbers in the air, we will gradually raise the price until one number remains. If there is a tie (last two bidders drop out at the same time), the bid is given to the buyer with the lower buyer number. The other bidder may raise the bid by \$250 if he wishes to stay in the auction. We intend for this to be a simple, low-pressure sale for the benefit of all involved.

VETERINARIAN:

Chad Shaw, DVM, Shaw Veterinary Service, (270) 670-7517. Contact Dr. Shaw for any questions regarding Red Hill Farms’ herd health or breeding soundness exams of the sale bulls.

ULTRASOUND TECHNICIAN:

David Aborn, Image Livestock Service

FERTILITY/DISPOSITION GUARANTEE: We guarantee the fertility and disposition of every animal selling. All bulls sell with a breeding soundness exam (BSE) certificate. Each bull is guaranteed to be a satisfactory breeder; assuming the buyer provides acceptable nutrition, health and management.

- If a bull proves to be a non-breeder, the buyer must contact Bart Jones or Sarah Jones on or before July 31, 2018, to make a claim.
- Red Hill Farms reserves the right to request a statement from a veterinarian and/or the bull being returned to Red Hill Farms at the buyer’s expense.
- If proper claim is made, the buyer will be given full credit if the bull is returned, OR full credit minus salvage value if the bull was sold with the credit to be used in a future Red Hill Farms sale.

INSURANCE: Ben Ballou of Lafayette, TN, will be happy to insure bulls in the sale for either mortality, infertility or both. Please call Ben at 615-633-2131 for more information.

RETAINED OWNERSHIP:

Red Hill Farms retains a 1/2 semen interest in all bulls selling.

We are selling 100% possession and 100% salvage or resale value. This gives Red Hill Farms the option to collect, use and market semen from the bull and does not restrict the buyer from doing the same.

GENOMIC ENHANCED EPDS: Bulls that have genomic enhanced EPDs are designated in the catalog with a logo.

is for the Red Angus bulls and is for the Simmental, SimAngus and Angus bulls. Most of the bulls selling have been genomically enhanced. DNA markers provide molecular breeding values which are used to enhance the EPDs and improve the accuracy of the EPDs. This is particularly important because the EPDs on these bulls are much more accurate than prior to the use of these DNA values. These enhanced EPDs now have the same meaning as data for bulls that have several progeny records.

Red Hill Farms Honored as 2017 Red Angus Breeder of the Year

Johnny Rogers, left, presented Red Hill Farms of Lafayette, Tennessee, with the Breeder of the Year Award. Ty, Sarah and Bart Jones, accepted the award at the National Red Angus Convention in Colorado Springs in September.

Immeasurable passion, time and devotion are common denominators on all esteemed cattle farms and ranches. The producers who rise above the rest are dedicated to pushing boundaries and extracting the maximum return on investment from their cattle. The Red Angus Association of America honored Red Hill Farms headquartered in Lafayette, Tennessee, as the Breeder of the Year at its 64th annual awards banquet in Colorado Springs, Colorado, on September 15, 2017.

The Breeder of the Year Award is presented to members who maintain an excellent standard of quality in breeding Red Angus cattle. Red Hill Farms is owned by Bart, Sarah and Ty Jones and Gordon and Susan Jones.

The Jones family has a long history of promoting Red Angus in their region and have never wavered on their commitment to utilize data to aggressively select for economically relevant traits and deliver greater profitability to their commercial customers. Red Hill Farms believes in the “More Than Just a Bull” philosophy and

stays engaged with their customers through continued education and outreach programs. Additionally, the family is repeatedly a leader in volunteerism through Red Angus committee service, event hosting and advocacy for the Red Angus breed.

The original farm was purchased by Bart’s great-great-great-grandmother in the late 1860s. The family has tilled the land with pride and raised quality livestock for seven generations on the rolling hills of northern middle Tennessee and south central Kentucky. Red Hill Farms operates in Macon County, Tennessee, as well as Allen, Monroe and Warren Counties in Kentucky.

The family farm consists of 450 Red Angus, Simmental, SimAngus™ and Angus cows, 150 acres of burley tobacco, 100 purebred sows and row crops that support the livestock enterprises. The cattle operation utilizes artificial insemination, embryo transfer, extensive performance records and DNA analysis to produce bulls and females for their annual sales held the last Saturday in October and the third Saturday in March.
