SATURDAY, MARCH 20, 2021

Selling:
**70 Red Angus, SimAngus™,
Charolais and Cross-Ty Bulls**

RED HILL FARMS
HOME OF PRACTICAL GENETICS

Dear Friends,

We are pleased to share our catalog and welcome you to our 16th Annual “More than a Bull” sale at Red Hill Farms on Saturday, March 20, 2021. We are thankful for our past customers and for the many commercial producers and purebred breeders who have studied and expressed interest in our cattle. In each of the last five Red Hill spring sales, bulls have sold into more than 10 states. It is humbling to learn of the success our customers are having with Red Hill genetics. Our goal is to provide practical breeding stock to **improve the profitability of our customers.**

Red Hill cattle have been selected to improve economically relevant traits with a goal of optimizing the practicality and profitability for our commercial customers. We focus on documented breed leading production traits while maintaining phenotypically pleasing cattle. **Why not buy your Red Angus, SimGenetics, Charolais, or Cross-Ty bulls from a family farm where “THE COW” is still the focus of the breeding program?** At Red Hill, we are strong believers in the **economic advantages derived from CROSSBREEDING.** Consequently, our goal is to provide breeds and composites that allow our commercial customers to take full advantage of **Hybrid Vigor – the last free lunch in the cattle industry!**

We will host a socially distanced bull sale at the farm on Saturday, March 20. Additionally, the sale will be broadcast online via DVAuction and a conference call line will be available for bidding.

We would appreciate those attending the sale to wear masks when social distancing is not possible. We will be taking additional precautions during COVID and will NOT be having our traditional Friday night “Cattle Talk.” We do plan to have a VIRTUAL Presale seminar via ZOOM on Monday night, March 15, at 7 p.m. Central. See page 1 for the link to join us online!

A major reward of the seedstock business is the opportunity to enjoy the friendship and fellowship of our customers and fellow breeders. Visitors are always welcome to visit our farm to study our cattle, records, and production system. We enjoy the opportunity to answer questions relative to the cattle and our operation. After reviewing the catalog, please contact us with any questions you might have.

Bart, Sarah and Ty Jones, Gordon and Susan Jones
